

The Hague

March 2, 2012

To whom it may concern,

I am more than content to write a letter of recommendation for Mr Bally Bakker. He has been my private Dutch language tutor for the last 4 months. In this time I have noticed significant improvement in my Dutch language skills. I have been very pleased with several elements of Mr Bakker's teaching methods:

1. Private tutoring focussing on personal challenges with the language made possible for me to improve my missing basics.
2. Great ability to communicate importance of the language aspects which are crucial to understanding. Not only teaching the language itself but the culture of the Netherlands as well.
3. Creating a learning environment where no questions are left without an answer.
4. Having the ability to be flexible and involved in finding the fitting personal needs and learning materials

The overall experience of having Mr Bakker as a private tutor has been great. I would recommend him as a teacher to anyone on any level of Dutch language.

Sincerely,

Asia Jeruzal
