Letter of recommendation for Bally Bakker

I recommend Bally as a teacher of the Dutch language to those learning the language for the first time.

His informal yet structured teaching methods are an effective and enjoyable way to start to learn the Dutch language.

He aims to make the learning experience both enjoyable and informative, learning Dutch can be fun.

My own experience has been very positive and as a result I felt able to speak a bit of Dutch after only a few lessons.

Therefore I recommend Bally to anyone who wants to learn Dutch while at the same time not wanting to enter into a complex, inflexible and formal language school.
