

Wassenaar,

May 31, 2012

To whom it may concern,

It is a real pleasure to write a letter of recommendation for M. Bally Bakker.

In the spring 2012, Mr. Bakker was my Dutch teacher during the intermediate level Dutch course.

What I have appreciated a lot during the lessons is the fact that Bally Bakker, with his informal and personal way to teach, can create a sociable atmosphere. This makes it easier to learn a new language without complex.

His new teaching methodology was always progressive, appropriate to our level. His lessons are, in the same time, clear, well structured and fun.

Bally Bakker succeeds to combine culture of the Netherland, linguistic information with grammar, vocabulary to make the learning process attractive and not boring. He manages easily interactions between the students by encourage them to speak about their own country.

After four months of this course, I have noticed significant improvement of my Dutch linguistic skills. He has stayed open minded to bring an answer whatever my requests.

The complete course has been more than great. Now, I can speak that language and follow a conversation.

Therefore, I would recommend Mr. Bakker as a teacher to anyone on any level who wishes to learn Dutch language.

Sincerely,

Martine Vicari
